

WHAT OTHERS ARE SAYING...

Engaging

"Really engaging, talked to us as professionals and on our level of knowledge"

Practical

"Plenty of practical ideas that could be implemented in the classroom straight away"

Knowledgeable

"Extremely knowledgeable and presents complex information in a way that is easy to understand"

Empowered Learners: Strategies for Self-Regulated Learning

Self-regulated learning (SRL) is when students set learning goals, select strategies, and monitor and evaluate their performance. SRL is a fundamental skill for lifelong learning and can be taught in our classrooms. This session deconstructs the fundamental elements of teaching SRL, including:

- What is SRL and what does it look like in the classroom?
- Why is SRL important for our students?
- What does the research say about how to best promote students' SRL?

Dr Shyam Barr

Drawing on 17 years of experience as a teacher, leader, researcher, TEDx speaker and co-host of the Educate to Self-Regulate podcast, Shyam has a deep understanding of SRL and is a passionate and engaging speaker.
